ANNOUNCEMENT.

We are authorized to announce Chas Offatt as a candidate for re-election to represent Bourbon county in the nex House of Representatives, subject to the action of the Democratic party.

THE ground hog appears to get-ng in a big stock of weather in on us lately.

FITZ JOHN PORTER'S friends have practically abandoned any hope of the passage of his bill by this Con-

Two students at Vine Grove Seminary, Hardin county, were engaged in "going through a Jesse James act" when the pistol explod-ed, the ball striking a young man named Adams in the temple, kill-ing him instantly.

WE are reasonably glad to know that two brutal prize-fighters in Pennsylvania are on their deathbeds and about to die from injuries each received while fighting with the other for a purse and the usual portion of gate money.

THE people of Bourbon have been whining for years for a bold and independent paper, outspoken newspaper. Now they have one and ought not flinch and palm off that old flimey excuse, "I'm taking twking too many papers."

Wirmin the past fifty years over 100,000 miles of railroad have been constructed and equipped at a cost of over \$6,000,000,000. State after State has been populated and is now teeming with a varied indus-try and with untold wealth.

AS A CONTRACTOR

It is said that "Uncle Tom's Cabin" will not be played at the is ready to pay up his deficit and Dramatic Festival in Cincinnati in April. Then set it down as a rip-roaring failure.

THE Plantation philosopher of the Arkansaw Traveler cynically remarks that "some folks 'tributes remarks that "some folks fributes all de misery ob dis earth to whis-ky license, but lemme tell yer what's a fack; marriage license comes in fur a big share ob de 'sponsility."

LONGBDALE, Postmaster at Green-castle, Ind., and also an editor, is an able man. He keeps standing at the head of his columns; "C. A. Arthur for President; 1884." When anyone files an application to be appointed Postmaster in his stead, he quickly mails the Presi-dent a marked copy of his paper and remains solid.

THE Democrats in Congress nip-ped a pretty little scheme in the bud the other day, which the Rebud the other day, which the Re-publicans had planned. It was to divide the state of Dakota into two states for political purposes. The carity leaders of that party are not caring a cent for the country. All they want is a retention in office, power, and a hand on the Nation's noney sack.

REV. M. Delp, the Baptist min-ister of Rochester, N. Y., cut the ice in a river and immersed three persons while the thermometer was 15° below zero, by standing over the hole and dipping his men in after the manner of scalding hogs. This thing of getting religion in such cold weather is a terrible thing, and is enough to make one shudder on the 4th of July to think

THE course of the Pariff bill con tinues to drag slowly through the halls of Congress, and it is to hoped that the longer it remains there the greater will be the equi-ty and wisdom contained within it's ponderous folds. Two students at Vine Grove Seminlions of money. Some philanthropist ought to take a clied and "remove" that old hog for the length of the country. The seminlion of the country.

THE regulators of Boyd county are at work again. One night last week a band of them on Sinking Creek pulled Jordan Hill from the arms of his wife and children and tied him to a tree in the woods and almost beat him to death with hickory poles. His wife knew no cause for the act, and says she knows them and will indict them. While the army of Kentucky is up in that country, it will be well to use it on those lawless bands.

Miss Emma Hardin died near Moorefield Saturday.
